EXECUTIVE BIO

Mr. Kareng is an architect and entrepreneur who is passionate about creating sustainable solutions that transform communities and power growth on a 'BIG' scale.

Mr. Kareng is the President of BizSolutions 360 or B360™, a full service architectural, engineering, logistics and consulting firm, that has designed, built, financed, operated, and managed projects and programs around the globe. The portfolio of B360™ companies operates worldwide over a range of industries including global health, power & energy, finance, infrastructure, logistics, water, real estate, oil and gas, private equity, retail, and the public sector.

He has engaged Senior-Level policy makers in USAID, DOS, USEA, DOD, White House and other Executive Branch Agencies.

Raised by determined parents who believed in hard work, discipline and the importance of education, he is now determined to leverage his capabilities to innovate economic empowerment solutions that alleviate poverty and create employment, especially for the more vulnerable people.

A former DAVIS CUP captain, Mr. Kareng is an intense team player and coach who enjoys building and developing relationships with people from all walks of life. He is a member of the American Association of Architects, the Architectural Association of Kenya, and the United States Green Building Council.
